# WHERE ART MEETS WITH THE AEGEAN SEA

It's not just the island that makes for beautiful surroundings; the hotel itself is an innovative forum for featured artists. This year we welcome the beautiful work of the contemporary artist, Gefso Papadaki. Her paintings explore the sounds of the Aegean Sea, giving the name to this interactive exhibition, "Aegean Melodies". Gefso's work, which is featured throughout the hotel, will visually engage and inspire our guests.

*"With nostalgia, joy and anticipation, Gefso Papadaki is handling design and colour in a very mature and passionate way, yet always maintaining a fresh and light outcome. Inspired by the island of Astypalea, Gefso brings together a palimpsest of Aegean memories and artistically reshapes the journeys of the mind and imagination."*

# A SENSE OF WELL-BEING

Experience nature in its best, relax the mind and acquire an attuned and harmonious sense of freedom through your body. Release tension, increase your awareness of your body and establish a connection to your senses.

Kallichoron invites the renowned Greek-Spanish body conscience and movement instructor Denise Perdikidis to introduce us to relaxation and body alignment techniques through outdoor activities by the sea.

Enjoy an unforgettable experience of wellness and theatrical games by the sea. A different way to a sense of wellness...

*"Dance with the landscape. Feel yourself merging in movement with sea water and sand through your personal style in dialogue with nature. Let yourself fall knee high in the water and sense your body letting go! Lie floating, forget your weight, let go and just float."*

- Denise Perdikidis
